Information about Foreign Language Teaching in Schools and Language Courses

Objectives, contents, programmes

The description can be distributed by the schools as a printed form, or can be filled in by the school/ course organisers (possibly with the learners' participation).

1. Please report in note form and as concretely as possible what objectives the teaching in the foreign languagets) is intended to achieve. Refer if you wish to official documents (syllabuses etc.) in the process. Please also state where particular emphases are set in each foreign language.
2. Please give information about the methods employed in order to reach the objectives stated. Please indicate the allocation of classroom hours at the different levels, the learning opportunities provided (such as intensive phases, interdisciplinary projects, exchange programmes, immersion teaching), the means to promote extracurricular learning, and the type and style of the examinations.
